SATURDAY, DECEMBER 3, 1887

We learn from good authority that proportionate to the progress made by the Protestant Episcopal Church toward, practical, visible, organic church union, with all evangelical believers, this branch of the Christian church has had more accessions to its membership during the past two years than any other evangelical body in the United States, and proportionately the Episcopal Church has made greater progress in all departments of religious work, in these past two years, than during twenty years previous. Says the *Christian Union*: "The Church congresses, conventions and councils of all evangelical bodies in the latter part of Christian and church union are telling on the public mind as well as in individual Christian living. Church union and Christian union are making more rapid progress this year than ever before. The outlook is decidedly encouraging, but the subject needs the help of every individual Christian. It deserves the earnest thought of every layman, as well as the best thought and effort of the pastor and evangelist. The Episcopal Church has offered more and greater concessions to the different evangelical divisions of the church than any other one denomination during the past two years."

It is certainly an error to hold that the Democratic party is strengthened by the possession of the offices. Its patronage has only weakened the President and the party. Neither is Mr. Cleveland stronger than in 1884 with his own party or with independent voters. The loyal element in the Democratic party, says the *New York Tribune*, has been displeased, to an extent which cannot now be measured, by the zeal of the Administration to reward and gratify disloyalty. The reform sentiment has been insulted and outraged so often that even the professional reformers begin to understand that they cannot afford to defend Mr. Cleveland any longer. Much is said just now of the President's letter urging the election of Colonel Feltgus, which was indeed a killing blow to his independent sponsors, both because of the personal unfitness of the man and because it was a flagrant violation of the President's own order prohibiting interference of Federal officials in elections. Yet it was not by any means the worst or the most harmful of the many acts by which the essential hostility of the Administration to the principle of reform has been demonstrated.

EDUCATIONAL statistics show that 14 years is approximately the age at which the great body of pupils in our public schools cease to attend regularly; and it is, therefore, to the instruction of children under 14 years that the public money should be chiefly devoted. There are, in fact, some people who insist that the whole expenditure should be limited to the education of this class. But even those who do not go so far as to accept this proposition must in reason admit that, until the best possible instruction can be given to children under 14, expenditure for the benefit of older children should be very moderate. As a rule, it will be found in almost every city that of children who attend school those under 14 years constitute 90 per cent. of the total; and that if the necessary accommodations should be provided there would be a larger number of children in attendance between the ages of 6 and 8 years. This means that in seeking to give finished education to a few of the youth of many cities deprives small children—probably too poor to go to school after their twelfth year—of the necessary primary instruction.

SOME of the California Congressmen are expressing themselves very decidedly in favor of tariff reduction. Australia and New Zealand are demanding concessions on their wool; Mexico is seeking reciprocity to let her fruits and other products in free; and Spain and France want to compete with our wines and raisins. The Administration is known to favor letting down the bars; and it might be well to know whether these Free-trade Congressmen propose to represent California or foreign interests in Washington.

A SURGEON of the Pacific Mail service traces the appearance of leprosy in the South Pacific Islands to the Chinese. The frightful prevalence of the disease in Hawaii is the legitimate result of unchecked Chinese immigration.

The French Crisis.
PARIS, Dec. 3.—Last evening, on the pretext that the Republic was threatened, hundreds of Revolutionists and Socialists, followed by a crowd composed of all elements, started for the Hotel de Ville. The police and cavalry charged the mob, which retaliated with a volley of stones. A number of persons were wounded. The mob was dispersed.

VERSAILLES, Dec. 3.—The first trial ballot by Senators and Deputies of the Left today for a candidate for President resulted as follows: M. Ferry, 200; M. de Freycinet, 193; M. Brisson, 81; M. Sadi Carnot, 69; General Sausser, 7. During the taking of the first ballot, M. Pellissier made an address to a number of Deputies who congregated outside of the Chamber.

PARIS, Dec. 3.—The second ballot by Senators and Deputies of the Left at Versailles this morning for a candidate for President resulted as follows: M. Ferry, 216; M. Freycinet, 198; M. Brisson, 79; and M. Sadi Carnot, 61. The papers condemn the message sent by President Grevy to the Chambers yesterday with his resignation. M. Floquet has withdrawn his resignation as President of the Chamber of Deputies. Military reinforcements are arriving in the city. M. Grevy, after his removal from Elyssee, took up his residence in Avenue Dienna.

CHICAGO, Dec. 3.—A *Daily News* special from Paris claims that Ferry is the surest Panama candidate for President. Ferry, it says, has promised great financiers that if elected he will endeavor to help the Panama Canal Company out of its present financial difficulty by getting France either to guarantee a loan to the Panama Canal Company or to float a grand lottery. Vast sums of money are said to have been already spent in securing votes for him, with a view to further his patronage.

VERSAILLES, Dec. 3.—On the third trial ballot 505 Republican Senators and Deputies of the Left voted. The vote stood: Ferry, 179; Sadi Carnot, 162; De Freycinet, 109; Brisson, 52; scattering, 8.

The fourth ballot resulted as follows: Sadi Carnot, 185; Ferry, 35; De Freycinet, 23; Brisson, 19. Only 233 Senators and Deputies voted. The Senate of the Right are divided in their choice of candidates. It is certain that a number of members of the Right will support Sadi Carnot.

The Congress of Senators and Deputies to elect successor to President Grevy was opened at 2 o'clock by Leroy, President of the Senate of the Whole, who declared that the National Assembly was duly organized.

Deputy Macchael asked leave to make a motion, but the President refused to allow him to do so, declaring that the Assembly was an electoral college.

AN ADJOURNMENT.

VERSAILLES, Dec. 3.—At 4:30 P. M., the vote being counted, on motion of President Leroy, the Congress adjourned till 4:45.

The belief is gaining strength in the lobbies that M. Sadi Carnot will be elected on the second ballot.

CARNOT ELECTED.

VERSAILLES, Dec. 3.—M. Sadi Carnot has been elected President of the Republic. The result of the first ballot taken in the Congress was: Sadi Carnot, 303; Ferry, 212; General Sausser, 148; De Freycinet, 76; General Sausser, 72; Brisson, 26; other candidates, 26.

De Freycinet and Ferry both withdrew in favor of Sadi Carnot, thereby assuring his election. He received 693 votes. The announcement of his election was made amid cries of "Vive la Republique!"

Gladstone Scores the Dissidents.

LONDON, Dec. 2.—Gladstone, in a letter, contends that the Dissidents have departed from the Whig tradition in opposing constitutional reforms in Ireland, and have narrowed the spirit and aims of the Liberal party in breaking the old and inviolable habit of the Liberal party in England, which heretofore regarded the Liberal aristocracy and the Liberal leisure class as the natural leaders of the Liberal movement. Thus the Dissidents have separated the classes from the masses, and he fears a permanent weakening of the party unless the higher class of Dissidents return to their allegiance to old principles.

A California Congressman Talks.

CHICAGO, Dec. 3.—Congressman McKenna, of California, who is in the city, in an interview with reference to affairs in California, said that the people wanted a Chinese Restriction Act that amounted to a total prohibition.

The long and short haul clause of the Inter-State Act had been suspended for the benefit of the Pacific slope, and therefore he was not prepared to say that the act would be detrimental to the interests of California.

Large Railroad Earnings.

MONTREAL, Dec. 3.—The gross earnings of the Canadian Pacific Railroad Company for the 10 months ending October 31st were \$9,468,000; working expenses, \$6,839,000.

Associated Press Rot.

LONDON, Dec. 3.—The Duke of Marlborough, who has been visiting the United States, was a passenger on the steamer Umbria, which arrived at Queenstown this morning.

An Archbishop Dead.

DUBLIN, Dec. 3.—The most Rev. Daniel McGettigan, D. D., Roman Catholic Archbishop of the diocese of Armagh and Primate of all Ireland, is dead.

TELEGRAPHIC BRIEVITIES.

—Bar silver, 94 1/2.

—Within the past year 28 engines have been built at the Sacramento shop of the Southern Pacific, and there are now orders there for over 40 more.

—Secretary Fairchild has completed the preparation of his report to Congress. It gives his views with regard to the surplus and the tariff at considerable length.

—John Coghlin, the partner of "Blinky" Morgan, indicted for the murder of detective Halligan, was found guilty of murder in the first degree at Ravenna, Ohio, yesterday.

—At Brookville, Kansas, yesterday, the Lawrence Hotel, six business houses and three dwellings were burned. Four men were burned to death. The guests of the hotel were obliged to jump from the second story windows.

—At New Britain, Conn., yesterday, George Dunham killed his sister, then with a dose of Paris green ended his own life. The mother of the two, nearly 90 years old, was stricken with paralysis on witnessing the murder, and is not likely to survive.

Mayo-Nordeck.

Frank Mayo, an old-time Reno favorite actor, who has won more fame and money with "Nordeck" than with any other of his great successes, will appear at the Nevada Theater next Wednesday evening in what the Eastern and California press have been pleased to term "The best play of the day," "Nordeck." From columns that have been written in its praise we clip the following from the *New York Herald*: "Union Square Theater was crowded last night to welcome Frank Mayo in his new play of 'Nordeck.' The audience was friendly from the first, and as the exciting situations of the play unfolded grew into enthusiasm. Recalls at the end of the acts were the order of the evening, and a good bit of work by any member of the company was sure of prompt recognition. 'Nordeck' is a strong play and is sure of considerable success, which it will win by its deserts. Indeed, it might almost be called the ideal romantic melodrama, so many of the excellencies of the melodramat does it attain without sacrificing purity and elevation of tone, and without violating the personality of its characters."

No Theater To-Night.

Manager Piper is compelled to announce that there will be no performance at the theater to-night by the "Natural Gas" company, owing to the sudden indisposition of one of the lady members of the troupe, Miss Jessie Oyler, while en route from Virginia City to Reno. At Carson Dr. Lee was summoned, but owing to the limited time, was unable to do any more than give remedies to relieve the pain from which the lady was suffering. On arriving at Reno it was, under the circumstances, deemed advisable to proceed at once to California, and Manager Piper was reluctantly notified that the engagement was cancelled. It is a great disappointment to our people, but the troupe will try to make amends by playing here during the latter part of the month.

If you want a nice clean shave and shampoo this evening or tomorrow morning go to Henry Morris' Wine House barber shop. Hair cutting only 25 cents.

John Sunderland is daily in receipt of fresh luxuries of ladies' gents' and children's shoes of the best makes and latest styles. Call and see them. Prices very reasonable.

H. A. Winton guarantees that every pair of boots or shoes he makes will snugly and comfortably fit the feet they were made for. He uses no cheap leather. Repairing done.

At about noon time every day Jake Becker's saloon is crowded with people who don't have time to go home to lunch. They get a schooner of beer and a hot lunch for 15 cents.

Go to Havenor's grocery store for the best groceries ever brought to this market. His stock of teas and coffees cannot be duplicated elsewhere in the State for the same money he asks.

Parties desiring wood from J. F. Aitken can have their orders at Meyer's cigar store on Commercial row. Wood in small lots and short lengths for stoves.

Thurston's stock of holiday goods appear to be just what is wanted, judging from the numerous sales he is making. It includes everything new in the way of cards, books, bibles, prayer books, etc.

A contemporary makes this sage remark, which will be appreciated in Reno: "One thing has been demonstrated—that natural forces of competition are far more effective than artificial laws in holding railways in check and in giving the public continually reduced rates."

STATE UNIVERSITY.

Two of the Regents Consider Some of the Needs of the Institution. Secretary of State Dornier and Superintendent of Public Instruction Dovey, members of the Board of Regents of the State University, returned to Carson yesterday afternoon after examining into some of the needs of the institution. A GAZETTE reporter learns that they examined more particularly into the question of opening a public road to the University grounds, but that nothing definite was decided upon; that there is a difference of opinion concerning matters bearing on the improvement, Mr. Dornier claiming that the irrigating ditch running through the grounds should first be run back to the buildings and then have the County Commissioners open the road leading toward the institution as far as the Evans place through to the grounds. Mr. Evans, the reporter learned, is willing to acquiesce to any reasonable requests of either the Regents or the Commissioners. The road now leading to the western side of the grounds, it is claimed, has too steep a grade to be traveled readily, and would require several hundred dollars expended on it to render it easy of travel. The amount expended on opening out a thoroughfare through the Evans property would be a little greater, and then two roads could lead away in opposite directions over an easy grade through the grounds to the University. But before any roads can be practically opened the Regents realize that they must first change the course of the irrigating ditch, which, if it is changed to run back of the University, an outlay of perhaps \$800 will be necessary. Mr. Dovey favors a change of the present course of the ditch in question, but advocates one that would cost only about \$300. It is probable no conclusion will be reached until Governor Stevenson returns from California.

A Move in the Right Direction. Attorney General John F. Alexander is pursuing a commendable course toward the material advancement of Nevada's natural resources. His proposition is to get from those who are upon the spot reliable data of various sections of the State. He then proposes to collate and summarize these facts and figures so furnished as to agricultural, mining and timber resources, together with the possibilities for irrigation especially, in the different sections, and offer this in condensed form for the benefit of whom it may concern, as an inducement to capital, and for reference to coming Legislatures. Parties receiving circulars from Mr. Alexander bearing on the matter should give them the attention they richly deserve.

HOW BEN BUTLER GOT RICH. Young Men of To-day May do Likewise if They Follow Advice Given.

General B. F. Butler being asked for some suggestions on gaining success, stated that when he was a young lawyer, practicing in Lowell, Mass., a bank president advised him to take his little deposit and buy real estate from which he could be deriving some revenue. The general said that he had but little money and was uncertain as to his future.

"Never mind," said the bank president, "go to the next public auction of real estate, bid off a lot with a building of some kind on it, pay down what money you have and give your promissory notes for the balance. You will come out all right."

General Butler says this advice was good. When a man has obliged himself by his notes, to pay money at a certain time, it inclines him to economy. He followed the advice, and in time became the owner of several parcels of valuable real estate in Lowell.

Two classes will not be likely to heed such advice—the imprudent and the over-cautious. The latter will be apt to say: "It would be all right but for those dreadful promissory notes. They are always running on and if a man falls sick they do not wait for him to get well."

There is this danger, of course, but one can make no business venture without some risk, and with the knowledge acquired by recent investigations of the cause of most ordinary ailments, and the means of cure, one runs little risk from that source. It is now known that most of the common ailments have their origin in deranged kidneys. They are the chief blood purifiers of the system and when disordered a breaking down somewhere is soon inevitable, because the poison, which in their healthy condition is eliminated, is carried through the entire system. Put them in order and health returns.

C. D. Dewey, a successful man, president of the Johnston Harvester Company, Batavia, N. Y., gives his experience as follows:

"In 1882 my health was failing, my head ached, my eyes constantly, my appetite was uncertain, I could not sleep soundly. I attributed this to the extreme pressure of business cares, but I grew worse, and finally was confined to my bed for two months. It seemed as though I would never recover." My former health. Under the aid of stimulants I gradually gained strength, so that in a few months I was able to attend to business, but I could walk only with the assistance of a cane, and then in a slow and unsteady manner. I continued somewhat in the same condition until February last, when I used Warner's safe cure. It has cured me. I consider it a valuable remedy and can highly recommend it.

Young men have but to use ordinary prudence, and when any derangement occurs if they use the same means as did this successful business man, they may feel a constant assurance of their ability to carry to successful conclusion all ordinary business projects including the care of their promissory notes when due.

Great Saving in our Prices.

Nothing has created so much talk as Breuner's elegant and immense line of Bedroom and Parlor Furniture. Suites for two, three, four, five and six hundred dollars. We can furnish you with a suite—the finest in the land or the cheapest to be had. Our trade has demanded that we carry the richest lines, and to-day we are shipping goods to San Francisco, Oakland and other parts of the State. San Francisco merchants cannot compete with us, as their store rents and other expenses are enormously high. Everybody admits that we sell the cheapest, and everyone who visits our stores says our assortment is as elegant as it is large.

If you desire anything in our line and cannot visit our stores, write us stating articles you want and will send you photographs and prices, and give you the same satisfaction as if you were selecting in our stores. Send for photograph of our \$20.00 bedroom suite.
